

# PROFESSOR GREEN

## SOIL ENHANCE

Creates Highly Productive Soil Year Round

Replenishes Nutrients in the Soil  
Increases Plant Health & Vigor

All Natural

Loaded With Vitamins & Minerals  
Promotes Micronutrient Uptake

Recommended by Farmers Worldwide  
Agricultural Grade

100% Satisfaction Guaranteed

Net 32 fl oz (1 qt / 946 ml)

Since 1974 commercial growers have used Western Nutrients Corp. products to achieve increased quality and higher yields in fruit and vegetables, increased flower production, healthier turf and hardier perennials. What was previously available only to commercial growers is now available to you as Professor Green Complete Line of products, tested by universities and farmers worldwide. Professor Green is an all naturally soluble series of products, containing the same highly concentrated nutrients, micronutrients, proteins, vitamins, and minerals used successfully by farmers worldwide.

All of Professor Green products are specifically formulated with a proprietary blend to achieve the highest efficiency and uptake of all nutrients while greatly improving soil fertility, boosting plant growth, increasing yield and overall plant health and stability. Professor Green also stimulates massive root development which helps plants with stand adverse weather conditions and improve the uptake of water and nutrients from the soil. Each of professor Green products are designed to be used alone or in a combination program to achieve maximum benefits.

Professor Green is farmer tested, used and approved

### DIRECTIONS FOR USE

**-CAUTION-**  
**CONCENTRATED AG STRENGTH**  
**PLEASE FOLLOW DIRECTIONS**  
**LESS IS BETTER**

**Tree I.V. Root Feeder:** Add ½ ounce with a 5 gallon application of water in each feeder. Apply every 7-8 weeks. Water as needed between applications.

**Watering Can (Garden):** Add 1 oz. per gallon of water and apply every 4 weeks. Water as needed between applications. Treat new garden soil before planting or sodding.

**Indoor Plants:** Add ½ oz. per gallon of water and apply every 4 weeks. Flush water through indoor plants periodically to remove salts that may accumulate.

#### GENERAL INFORMATION

For use in both soil and foliar applications:

1. Soil Enhance increases organic matter in the soil.
2. Soil Enhance acts like peat moss.
3. Soil Enhance promotes soil and foliar nutritional activity.
4. Aids in promoting increased activity of soil microorganisms.
5. Aids in reducing compact soil conditions.
6. Trace minerals are made more available.
7. Soil Enhance is compatible with most fertilizer, microbial, and enzymatic formulations that are neutral or slightly alkaline pH.

#### GUARANTEED ANALYSIS

Humic Acids ..... 6%  
Also contains a non-plant food ingredient  
6% Humic Acid derived from Leonardite
